Laxmi N Patil

Career Interest: Java Full Stack Development

9591860810 laxmipatil88392@gmail.com linkedin.com/in/laxmi-patil-471b88368 Alva's Institute of Engineering and Technology (AIET)

CAREER OBJECTIVE

Computer Science and Engineering student with a strong interest in software development and problem solving. Experienced and practicing across Java and Python development, web technologies, database management, and problem solving. Aiming to build a successful career in Java Full Stack Development by continuously strengthening Data Structures and Algorithms using Java and building practical software projects.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science and Engineering **CGPA: 8.5 / 10 / 10**
Alva's Institute of Engineering and Technology (AIET) • Expected Graduation: 2028

TECHNICAL SKILLS

Programming: Java, C, Python

Web Technologies: HTML, CSS

Database: MySQL

Problem Solving: Data Structures & Algorithms (Java)

Version Control: Git

PROJECTS

1. Student Mark Management System

`Java, JSP, MySQL`

Developed a system to manage student examination marks. Features include: add, update, delete, display marks, and generate reports with MySQL persistence.

2. AI Career Mentor

`Java, JSP, MySQL, HTML, CSS`

Developed a web application providing career guidance to students. Features include: student registration, login, career recommendations, and MySQL storage.

3. Ride Log

`Python Mini Project`

Developed a Python mini project called Ride Log demonstrating programming, data handling, and travel logging fundamentals.

CERTIFICATIONS

Coursera Certifications: Completed relevant online courses and assignments.

PROBLEM SOLVING & CONTINUOUS LEARNING

- Practicing Data Structures and Algorithms using Java.
- Solving programming problems to improve logical thinking and coding skills.
- Continuously developing algorithmic problem-solving skills.
